

**Alternatives Journal**  
Canada's Environmental Voice

**KITCHENER/March 9, 2018**

**Alternatives Journal (A\J) is hosting a celebratory event to raise awareness of Ontario's Greenbelt.**

Alternatives Journal – the voice of Canada's environmental community – is throwing a party in downtown Kitchener to celebrate green spaces, clean rivers and priceless natural areas that make up the Ontario Greenbelt.

The Greenbelt is comprised of more than 2 million acres of land and spans 325km, from Tobermory all the way to the Niagara River. Located in the centre of the Greater Golden Horseshoe, the protected area offers numerous benefits for the surrounding communities.

AJ wishes to raise awareness and promote discussion surrounding the status of the Greenbelt. On **March 21st**, Alternatives Journal is hosting an event to do just this, in the most engaging way possible.

Partnering with craft breweries and local food sources, the event will feature not only free beer and delicious food but engaging art and lively music. Musical performers include Justin Lacroix and The Blurry Pickers, with art installations from CD Good.

The night will offer a sprightly combination of information and entertainment. Kevin Thomason, lead representative of Smart Growth Waterloo Region, will be among many noted guests circulating with ideas and conversation.

Admission to the event, as well as food and beverages, will be free and open to the general public. The celebration will take place on **283 Duke Street West**, downtown Kitchener in the co-working space of the building. Time of the event is 6PM to 9PM.
